Profile Summary

Results-driven Flutter Developer with 3+ years of experience architecting and shipping high-performance cross-platform mobile applications across retail/POS, ed-tech, healthcare, fitness, and social media domains. Delivered 5+ production apps live on Google Play Store and Apple App Store, including an AI-powered POS & billing ecosystem (Fulupo), an AI video-generation social app (Selfitoons), and an internship discovery platform (Internsharks.ai). Proficient in Flutter, Dart, GetX, Bloc/Cubit, Firebase, REST APIs (Dio), Google ML Kit, Bluetooth ESC/POS integration, and payment gateway integrations (Cashfree, Razorpay). Proven track record of driving measurable business impact through clean, modular, Clean-Architecture-based codebases, performance optimization, and zero-error, requirement-driven delivery.

Experience

•DoubleTap Innovations and Technologies Pvt. Ltd. *Jan 2025 – Present*

Flutter Developer Chennai (On-site)

- Architected & shipped 3 production Flutter apps – Internsharks.ai, Fulupo Retail & POS Ecosystem, and Selfitoons – across 50+ screens using GetX, Bloc, and Clean Architecture, live on Google Play Store and Apple App Store.
- Engineered an AI-powered POS system with Google ML Kit scanning and Bluetooth ESC/POS printing, cutting checkout time by 40% and inventory discrepancies by 30%.
- Integrated Cashfree and Razorpay payment gateways across products, achieving a 98.5% payment success rate and boosting in-app transactions by up to 50%.
- Built an AI-powered resume builder and automated MCQ assessment pipeline, lifting candidate profile completion by 45% and recruiter evaluation efficiency by 60%.
- Optimized performance via Dio interceptors, local caching, and FFmpeg-based client-side video processing, cutting network payload by 30%, render latency by 40%, and server CPU load by 75%.
- Integrated Firebase FCM, Crashlytics, and Bluetooth hardware APIs, boosting store operational efficiency by 35% and consumer repeat orders by 20%.

•Datayaan Solutions Pvt. Ltd. *July 2023 – Dec 2024*

Senior Software Engineer Chennai (On-site)

- Delivered 2 high-performance Flutter apps with full App Store/Play Store release compliance, cutting development effort by 30% through scalable, reusable architecture.
- Resolved a critical 16KB page-size rendering issue, improving crash-free stability across production builds.
- Integrated UAE PASS authentication and deep-linking with analytics tracking, enabling secure onboarding and smooth re-entry for Dubai-based users.
- Converted Figma designs into responsive, pixel-perfect UI, improving usability and cutting design-to-code revisions.
- Strengthened QA through structured code reviews, performance instrumentation, and production monitoring, reducing post-release defects.
- Mentored junior developers and led Agile stand-ups, cutting onboarding time and contributing to CI/CD pipeline improvements.

•Web Development Internship *May – June 2023*

Brazy Academy, Tirunelveli Online

- Learned fundamentals of web development using HTML, CSS, and JavaScript.
- Implemented responsive UI designs and basic web functionalities.

Technical Skills and Interests

Languages: Dart, HTML & CSS, Python(Basics)
Frameworks: Flutter
Development Tools: Git, GitHub, Postman, Xcode, MS Office (Word, Excel), Figma
Databases / Cloud: Firebase, Supabase, SharedPreferences
Platforms: Android, iOS, Windows, macOS
Areas of Interest: Mobile App Design and Development
Soft Skills: Problem Solving, Self-learning, Innovation, Adaptability

Projects

•Internsharks.ai

Cross-platform internship discovery app for students and recruiters – DoubleTap Innovations.

- Engineered & architected a dual-portal app using Flutter & GetX (Clean Architecture) across 50+ screens, reducing code duplication by 35% via modular dependency injection.
- Integrated Cashfree Payment Gateway SDK with a credit-based monetization model, boosting in-app micro-transactions by 50%.
- Designed an AI-powered conversational resume builder with real-time PDF preview and multi-template export, increasing profile completion rates by 45%.
- Built an automated MCQ skill-assessment & certificate pipeline plus FCM-driven engagement, lifting recruiter evaluation efficiency by 60% and user retention by 25%.

•Fulupo Retail & POS Ecosystem

Omnichannel POS, billing, and delivery platform for store managers and consumers – DoubleTap Innovations.

- Engineered an AI-powered POS & billing system with Google ML Kit scanning and Bluetooth ESC/POS printing, cutting checkout time by 40%.
- Architected real-time inventory, order, and returns workflows, reducing inventory discrepancies and wastage by 30%.
- Integrated Cashfree payments and slot-based delivery scheduling, achieving a 98.5% payment success rate and 35% faster order completion.
- Optimized state management (GetX) and Dio caching, improving app launch speed by 25% and cutting network payload by 30%.

•Selfitoons

AI-powered video generation and social media app – DoubleTap Innovations.

- Built an AI-powered video generation & social media app, live on Google Play Store and Apple App Store.
- Implemented client-side video watermarking via FFmpeg, shifting compute to the device and cutting server-side CPU load by 75%.
- Engineered a custom Video Controller Manager (pool of 5 active controllers), eliminating memory leaks and boosting feed scroll FPS.
- Architected a social feed (follows, likes, comments) using Bloc & GoRouter; integrated Razorpay and Cashfree for premium subscriptions.

•Athics

Trainer/member fitness app with booking, assessments, diet/workout plans, and vitals tracking.

- Built a modular Flutter & GetX app scaled to 1000+ active users while maintaining 99% crash-free sessions.
- Developed member features (bookings, branch switching, diet/workout auto-tracking), lifting member engagement by 30%.
- Built trainer tools (attendance, workout assignment, assessments), improving trainer productivity by 35%.
- Partnered with QA and backend teams on API integration, cutting post-release defects by 20%.

•Medyaan Health

Dental health app for viewing scan reports, booking appointments, and managing referrals.

- Implemented international mobile-number authentication (Flutter & Bloc), improving onboarding completion by 20%.
- Built doctor-wise appointment scheduling with cancel/reschedule and status filtering, cutting missed bookings by 25%.
- Delivered real-time push notifications and downloadable PDF scan reports, lifting patient show-up rate by 15% and cutting support queries by 30%.
- Enabled deep-link/WhatsApp referral sharing and auto-upgrade, growing referral-driven acquisition by 20%.

Certifications

•Flutter Development Certification *2024*

Udemy Online

•Figma Essentials for UI/UX Design *2025*

Udemy Online

Education

•Bachelor of Engineering in Computer Science and Engineering *2019-2023*

Einstein College Of Engineering, Tirunelveli CGPA: 7.8
